# Ensure compliance and manage change

EHS hero

From employee participation to mechanical integrity to permit management, there are more than a few details to keep track of in improving your company's process safety management (PSM). Fortunately, EHS Hero®, BLR's comprehensive environment, health, and safety (EHS) management solution, can make the job a whole lot easier.

Integrated process safety management

EHS Hero's Process Safety Management tool combines the 14 elements of PSM into one tool so you can centralize data storage, save time, and take your safety and compliance efforts to the next level.

## Functionality that makes a difference

- ▶ Includes modules covering all 14 elements of PSM, including:
  - Incident investigation
  - Process hazard analysis (PHA)
  - Hot work permits
  - Compliance audits
- ▶ Configurable for your specific PSM regulatory requirements
- ▶ Centralized assignment and tracking of actions, reviews, and approvals
- ▶ Searchable records of all activity
- ▶ Automated notifications for required audits or noncompliance issues

Benefits of EHS Hero's solution

- ▶ Increase efficiency by consolidating all PSM functions in one tool
- ▶ Follow Occupational Safety and Health Administration (OSHA) guidelines for PSM to improve process safety and reduce risk
- ▶ Follow Environmental Protection Agency (EPA) guidelines for Risk Management Program (RMP)
- ▶ Streamline compliance tracking
- ▶ Share the compliance load across your team

Say goodbye to clunky, disparate PSM tools and hello to a uniquely integrated and user-centric solution from EHS Hero.

Streamline and standardize management of change

Looking for a change management solution but don't need all 14 modules of the PSM tool? EHS Hero offers a stand-alone Management of Change (MOC) tool that can help you manage change systematically with a standardized process and centralized platform

Core capabilities

- ▶ Unified document storage
- ▶ Create detailed plans for successful implementation of change
- ▶ Track revision history
- ▶ Dashboard view provides high-level overview of change across locations
- ▶ Built-in review and approval processes

Benefits of MOC software

- ▶ Increase visibility into change procedures
- ▶ Reduce the likelihood of lost or misinterpreted information
- ▶ Configurable to manage an unlimited number of change types
- ▶ Meets PSM recordkeeping requirements
- ▶ Easy-to-use platform increases employee adoption of software

Take control of change with EHS Hero's Management of Change tool.
