

EHS Hero's Risk Assessment tool

Build customizable risk matrices, and track risk levels across your organization.

Remove confusion and guesswork with EHS Hero's Risk Assessment tool. Create a methodology to quantify risk to prioritize resources based on measured results, and use the results to effectively focus your capital investment to make the biggest impact on business operations.

With EHS Hero's Risk Assessment tool, you will:

- ▶ Measure the negative impact
- ▶ Analyze the levels of risk
- ▶ Track audit revision history
- ▶ Define categories of risk
- ▶ Set the severity scores and occurrence likelihoods
- ▶ Weigh risk against control methods
- ▶ Compare inherent risk and residual risk calculations

Virtual Assistant included with purchase. The Virtual Assistant will simplify administrative tasks associated with risk management.

Track your progress toward risk reduction, and comply with American National Standards Institute (ANSI) risk standards.
