

EHS Hero

solution overview

Compliance and management made simple

Safety management

Our integrated safety management tools make tasks easy and quick. Our management suite streamlines your environment, health, and safety (EHS) program, saving up to 75% of manual process time.

Safety management tools:

- » Audits and Inspections
- » Asset Management
- » Behavior-Based Safety Observations
- » Engagement
- » HazCom and SDS Management
- » Job Hazard Analysis (JHA)
- » Lockout Tagout (LOTO)
- » Management of Change
- » Permit Management
- » Process Safety Management
- » Risk Assessment
- » Training Management
- » Work Authorizations
- » Virtual Assistant

EHS Hero's user-friendly mobile application enables access to actions, audits, safety data sheets (SDSs), LOTO procedures, JHAs, and more with or without network connectivity, providing flexibility and convenience for on-the-go safety needs.

Virtual Assistant

Our virtual assistant makes it easier to manage audits, inspections, incident reporting, and more. It automates actions, promotes collaboration, and increases accountability.

Tools included:

- » Corrective Action Preventive Action (CAPA)
- » Document Center
- » Insights
- » Scheduler

Regulatory compliance

Flexible compliance tools for tracking regulations from major agencies like the Environmental Protection Agency (EPA), the Occupational Safety and Health Administration (OSHA), and the Department of Transportation (DOT). Expert insights and resources ensure efficient compliance.

Regulatory compliance resources:

- » Regulatory Analysis Chart Builder
- » Environmental Compliance Calendar
- » EHS Documents and Downloads
- » EHS Hotline
- » Plan Builder
- » Regulatory Activity
- » Report a Spill
- » SDS Search
- » RegUpdate email notifications

Training management

Get access to over hundreds of training courses and 7-minute safety meetings with EHS Hero®. Use instructor-led training materials, including PowerPoints, quizzes, and speaker notes, to deliver effective classroom training or quick safety meetings in the field.

Training management tools:

- » Safety Toolbox Trainer
- » Training Materials, including
 - < Training content in English and Spanish
 - < Streaming video-on-demand safety training
- » Training Management

Plus, the Training Management tool integrates with other safety management tools, including HazCom and SDS Management, LOTO, and JHA, to ensure employees are trained on the most up-to-date versions of critical safety documentation.
