Efficient training management solutions from BLR

BLR's environment, health, and safety (EHS) training solutions, ranging from expert-made training resources to an industry-leading learning management system (LMS), provide everything you need to develop an effective and compliant training program.

Deliver and manage instructor-led training

BLR's EHS Hero® offers two solutions for delivering and managing training with ease. EHS Hero's Training Management tool can help you simplify the management of your instructor-led training. This training management software centralizes training documents, tracks training progress, and provides customizable reporting for insights into training effectiveness.

In addition, with BLR's comprehensive training materials, you'll have access to everything you need to deliver effective instructor-led training both in the classroom and in the field. Our multi-format training materials allow for a blended learning experience you won't find anywhere else.
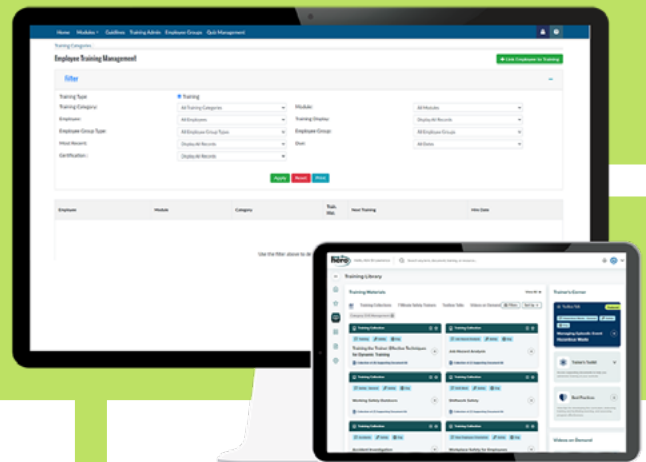

These solutions can help you foster a culture of continuous learning and ensure OSHA compliance.

"Companies that prioritize safety training see a reduction in injuries by up to 40%."
—the Occupational Safety and Health Administration (OSHA)

Key features:

▶ Schedule training, and track due dates

▶ Access a library of expert-made training materials, including PowerPoints, training certifications, and other key documents

▶ Build and evaluate quizzes to verify training comprehension

▶ Configure reporting to see metrics that matter most to your organization

The EHS Hero difference

Our training management software seamlessly integrates with other management tools to tie key safety documents into your training program to ensure your employees receive training on the most up-to-date versions.

trainingtoday

Mobile and bilingual self-paced training

BLR's TrainingToday® is a comprehensive training platform that offers expert-crafted EHS courses in an intuitive and scalable LMS. This dynamic training tool is perfect for organizations looking to simplify the onboarding process, reduce the need to audit courses for compliance, and provide expert-led courses for specific job functions.

Most popular EHS courses:

▶ Hazard Communication and GHS: What Employees Need to Know

▶ Fire Extinguishers Safe Use and Handling

▶ Avoiding Exposure to Bloodborne Pathogens

▶ Emergency Action and Fire Prevention

▶ Workplace Safety for Employees

▶ Avoiding Back Injuries

▶ Personal Protective Equipment: What Employees Need to Know

▶ Preventing Slips, Trips, and Falls: A Guide for Employees

▶ Ladder Safety

▶ Basic First Aid for Medical Emergencies
