# eLearning update Q1 2025

## Q1 2025

In this training update, we are thrilled to present a comprehensive update on our training offerings. As we continuously strive to enhance your learning experience, we have revamped our course catalog with fresh content, introducing cutting-edge courses designed to meet the evolving needs of your industry. This collateral piece serves as your guide to the latest additions, retirements, and replacements within our training programs. Discover innovative courses that will empower you to stay at the forefront of your field and bid farewell to the retired content, making way for fresh replacements that better cater to the evolving needs of today's learners. We invite you to explore these updates and embark on a learning adventure that promises growth, relevance, and excellence.

## Our new catalog is now live!

View our comprehensive list of available courses [here](#).

## New and updated courses now available

We're excited to announce the following courses launched or have been updated within the past quarter. If you have the corresponding library, you will see that course appear within your content or SCORM files.

## What we're working on

- **Enhancing the UI/UX of our courses** – Our team of eLearning developers have been busy modernizing course templates, integrating more scenario-based learning, and increasing interactivity so your learners stay engaged and retain key concepts.
- **Improving accuracy** – We pride ourselves on the quality of our content—particularly when it comes to compliance—but because our courses are developed by hand in house, we are always improving content and functionality so there is nothing to distract from the learner experience.
- **LMS interface improvements** – If you're hosting our courses on TrainingToday, get ready for some exciting platform enhancements like a more streamlined navigation, updated color palette, new content authoring style elements.
